REQUEST FOR CORRECTED FILING RECEIPT

ASSISTANT COMMISSIONER OF PATENTS
Washington, D.C. 20231

Dear Sir:

On March 3, 1998, Applicant filed the above-identified application with the United States Patent and Trademark Office. A Filing Receipt for this application (Attached as Exhibit A) was subsequently received by our offices from the U.S. Patent and Trademark Office, wherein the following errors are noted:

(1) The last name of the first named inventor is misspelled. As is set forth in the original application papers submitted to the Patent and Trademark Office, the correct spelling of the last name of the first named inventor should read "Edwards" and not "Edwads".

(2) One of the inventors is omitted from the Applicants section of the Filing Receipt. As is set forth in the copy of the original declaration submitted with the parent application, a third inventor, "David Swanson", should be added to the Applicant's section of the Filing Receipt.

(3) the Continuing Data is incomplete. The correct continuing data in its entirety should read:

This application is a continuation of 08/747,811 11/14/96
Which is a Divisional of 08/636,174 4/22/96
Which is a Divisional of 08/168,476 12/16/93 (Now US 5,509,419)
Which is a Divisional of 07/951,157 9/25/92 (Now US 5,309,910)

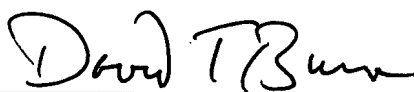

Applicant respectfully requests that the Patent and Trademark Office issue a corrected Filing Receipt indicating the above noted corrections.

No fee is believed to be required for processing of this request. However, if a fee is required, authorization is hereby given to charge deposit account number 12-2475.

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "FOREIGN FILING LICENSE GRANTED" followed by a date appears on the reverse side of this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.11. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.62 which meets the provisions of 37 CFR 5.15(a). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations, especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR Parts 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "FOREIGN FILING LICENSE GRANTED" DOES NOT appear on the reverse side of this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
